

Remarks

This Amendment is filed in response to the Office Action, requiring restriction, dated March 15, 2005. This application should be allowed and the case passed to issue. No new matter is raised by this Amendment. The amendments to claims 2-8, 10, 11, 17, 18, and 23 correct informalities to provide proper antecedent basis for the claim limitations. New claims 53-76 are supported throughout the Specification, including paragraphs [0090], [0093], [0101], [0102], and [0105], which clearly disclose emitting the energy from moving bodies; and paragraphs [0058] and [0059], which clearly disclose a method of forming a channel. In addition, new claim 60 is supported by claim 29. Support for new claim 61 is found in claim 33. Claim 34 supports new claim 62. New claim 63 is supported by claim 43. Support for new claim 64 is found in claim 47. New claim 65 is supported by claim 48, and claim 52 supports new claim 66.

Claims 1-76 are pending in this application. Claims 1-52 are subject to a restriction requirement. Claims 2-8, 10, 11, 17, 18, and 23 have been amended in this response. New claims 53-76 are added in this response.

Applicant has traversed the restriction requirement. In the event the Examiner maintains the restriction, Applicant respectfully requests that claims 53-76 be grouped with claims 29-35, 43-49, and 52, and be examined on the merits.

In view of the above remarks, Applicant submits that this application should be allowed and the case passed to issue. If there are any questions regarding this Amendment or the application in general, a telephone call to the undersigned would be appreciated to expedite the prosecution of the application.
